

FIG. 4-1 Kei's personal narrative, before revision

We ate lunch and just sat down watching the T.V as a family. ~~We~~ We usually just leave Jamp wandering in the house so he has freedom.

My great grandmother likes to sew and do many cool things with fabric. She's been doing it all her life

I wouldn't have seen this
While we were watching T.V, Jamp went to my great grandmother's small ~~shelf~~ that had all the things that she used for sewing.

Then, Jamp came running out of the room to us.

I didn't know this until I went to the vet.
"Ahhh!" I screamed as I saw Jamp cough up some blood on to the floor.

He had swallowed a needle and was running around the room screeching in pain. My mom ~~the~~ picked him up and took him to ~~the~~ the vet quickly.
